 - **Board Role:** The Board's role is to govern—to set policy, ensure financial oversight, and hold the school accountable to its mission and charter.
 - **School Leader Role:** School leaders are responsible for interpreting, executing, and applying policy, and for managing day-to-day operations.
 - **Topics:** To protect privacy, the Board does not hear comments regarding individual students or staff members in open session. Such concerns should be directed to school leadership through established procedures.
 - **Civility:** Comments should be addressed to the Board as a whole, not to individual members or staff. The Board expects all participants to maintain a respectful and constructive tone.
